Welcome to the Annual Meeting of the American Association for the Surgery of Trauma! We are thrilled to welcome you to Anaheim and have a great program put together for you. The Program Committee has worked hard to make an increasingly more diverse meeting with excellent science, networking, a chance to meet new people and spend time with old friends.

It is truly hard to pull out any part of the program to spotlight, and I hope that you are able to appreciate the incredible amount of hard and productive work that all the AAST committees do. Highlights of this meeting focused on mentorship and community include an expert surgeon lecture and panel focused on innovative research as well as a panel on community partnerships for violence prevention. The Fitts oration will be given by past president Dr. Wayne Meredith. In addition to the science, have fun at the silent auction, WITS reception, banquet, and so much more! Finally, look for and participate in the continuation of our pathway program from our DEI committee, as well as a community partnership focused on fall prevention from our geriatric and injury prevention committees.

I look forward to seeing and talking to many of you over the course of this week, and as always, am happy to hear feedback about any part of the meeting.

Karen Brasel, MD, MPH
Dear AAST Members and Guests,

We are excited to welcome you to the 82nd Annual Meeting which will be held in Anaheim, California this year! Our program committee, under the leadership of Dr. Brasel, has assembled an outstanding program with the opportunity to learn about the latest advances in our field. I am delighted to announce that Dr. Wayne Meredith has agreed to be our Fitts Orator this year. Dr. Meredith has been a mentor for me, and I am always inspired by his insight and wisdom. We will also have two panel sessions. The first panel will include an expert lecture by Dr. Lillian Kao on quality improvement research followed by a discussion of innovative approaches to research in our field including implementation science, patient-centered research strategies, and research approaches in palliative care. The second panel, led by Dr. Rochelle Dicker, will focus on strategies to address the growing problem of community violence based on the experiences from a variety of programs from across the country.

The theme of this year’s meeting is Building Community and so there will be a number of opportunities to support career development and networking. We are launching the new AAST Leadership Academy at the meeting. In addition, we will host the first in-person meeting of the Women in Trauma Surgery (WITS) group with a reception this year. WITS is open to all, and you do not need to be an AAST member to join. If you are interested in being added to the WITS mailing list, just send your contact information to aast@aast.org.

I look forward to seeing you all in sunny California in September!

All My Best,

Eileen
OPTIONAL SESSIONS

TUESDAY, SEPTEMBER 19
1:00 - 5:00 PM
PRE-SESSIONS

AAST FALLEN SURGEONS MILITARY EDUCATIONAL SYMPOSIUM - Preliminary Schedule

0700-0800: Registration
0800-0810: Welcome
0810-0830: Presentation of Colors and Fallen Comrade Table acknowledgment
0830-0850: Opening Remarks
0850-1130: Resident paper competition
1130-1230: KEYNOTE SPEAKER
1230-1300: Lunch
1300-1430: Panel Session I: Good Surgery in Bad Places
1430-1445: Break
1445-1615: Panel Session II: Ethical, Moral, and Legal Challenges in the Operational Environment
1615-1630: AAST Always Remember Fund overview and call for donations
1630-1700: Award Announcements

LAPAROSCOPIC TRANSCYSTIC COMMON BILE DUCT EXPLORATION: A HANDS-ON SEMINAR

The participants of this course will review the indications and technique of transcystic common bile duct exploration. In addition to the didactic component, we will also have participants practice on simulators and equipment used commonly at centers.

Faculty: Marc de Moya, MD; Patrick Murphy, MD, MPH, MS; Thomas Conver, MD; Libby Schroeder, MD; Andrew Hovin, MD

TAKE THE NEXT STEP: A COMPREHENSIVE APPROACH TO MAKING THE TRANSITION TO INDEPENDENT INVESTIGATOR (PART 1)

Please note part two will take place on Thursday, September 21st from 1:45 PM - 6:00 PM

This innovative two-day course will immerse early career surgeon scientists with the knowledge and skills to begin taking the next steps to becoming independent investigators. The course will begin with a full day of didactic sessions focused on mentoring budding surgeon scientists to develop impactful research questions, surround themselves with the right people to succeed, and lead their teams effectively. The findings of the National Trauma Research Action Plan will be highlighted as a potential source for relevant research questions and the benefits of partnering with the Coalition for National Trauma Research will be considered. Additionally, techniques for writing a successful grant application and funding mechanisms relevant to the trauma and acute care surgeon will be discussed.

Moderators: Jonathan P. Meizoso, MD, MSPH; Brittany K. Barrhead, MD, MS; Julia R. Coleman, MD, MPH; Ryan P. Dumas, MD

Speakers: Raul Coimbra, MD, PhD; Todd W. Costantini, MD; Rachael A. Collut, MD, MS; Bellal A. Joseph, MD; Bron Zamora, MD, MPH; Evert R. Houw, MD, Phm; Jamie Coleman, MD; Rosemary A. MASTERY OF TRAUMA TECHNIQUES AND PRACTICE: THE 2023 AAST CONTINUOUS CERTIFICATION COURSE

The 2023 AAST Continuous Certification Course will focus on modern trauma techniques, concepts, controversies, and recently published landmark scientific papers as selected by the course core faculty. The course will feature three distinct sessions and include topical debates, didactic talks, expert panel case sessions, and discussion of selected landmark papers. Several of the sessions will incorporate a live audience response system as well as an opportunity for audience Q&A to the panel. The three core sessions and content will be:

1. The Generation Gap: AAST Associate Members versus Fellows (90 minutes): session featuring brief topical debates followed by a rapid-fire expert panel discussion of cases related to the debate topics and pitting associate member faculty versus more senior AAST member faculty.

2. Phone a Friend: Tips and Tricks for Managing Five Difficult Injuries (105 minutes) session featuring talks by “masters” focused on practical tips, tricks, techniques, and pearls for managing select challenging and difficult injuries, followed by a rapid-fire challenging scenarios panel discussion.

3. Hot Off the Press! Landmark Papers and Critical Concepts in Trauma (60 minutes) session featuring brief review and discussion of the top landmark papers published within the last three years in the fields of Resuscitation, Truncal Trauma, Head and Neck Injuries, and Trauma Education/Training.

Moderators: Jonathan P. Meizoso, MD, MSPH; Brittany K. Bankhead, MD, MS; Julia R. Coleman, MD, MPH; Ryan P. Dumas, MD

Eileen Bulger conceived the idea of early-career surgeon involvement within the AAST. Her vision came to fruition in 2019 with the inaugural class of Associate Members. It has since grown to approximately 510 members. Dr. Bulger will review the impetus for creation of the Associate Member status, their current role within the organization, and her goals for the future. Navigating the AAST as Early-Career Surgeon, and Transition to Fellow: Dr. Lisa Marie Knowlton, past President of the Associate Member Council (AMC), will discuss the structure of the Associate Member Council, participation as an early-career surgeon, and the transition to Fellow. Participation and Leadership as a Fellow of the AAST: Membership Chair, Dr. Patrick Reilly, will discuss ascending the ranks as a Fellow. He will review commitment to active participation, and advice for rising to leadership positions, including committee chairs, task force leaders, and Board of Directors. Networking and Mentorship as Early- and Mid-Career Surgeons Within the AAST: Dr. David Spain will provide approaches to networking, and receiving and providing mentorship, allowing for growth within the organization.

Speakers: Eileen Bulger, MD; Lisa Knowlton, MD, MPH; Patrick Reilly, MD; David Spain, MD
ON-CALL WITH NEXTGEN MASTERS IN ACUTE CARE SURGERY: NAVIGATING COMPLEX CASES

This session will be a twist on "Engage the masters" sessions and instead will focus on current challenges faced by early and mid-career faculty. Four mid-career surgeon panelists will discuss cases presented by Associate Members of the AAST.

Associate Members will present challenging cases they have had while on call. The moderators will lead the discussion and engage four mid-career surgeons for each case and ask them how they would manage these patients. Emphasis will be placed on challenging and controversial management as well as evolving and new technologies.

AAST Associate Member Case Presenters:
- Amanda Marsh, MD, Rosanna Guzman-Curtis, MD, MPH;
- Michael Parnisky, MD, MSc, Bhuvanac, MD

AAST Mid-Career Panelists:
- Michael Cripps, MD; Leah Tatebe, MD; Stepheny Berry, MD; Tareq Kheirbek, MD, MSc, MS

INTERNATIONAL CASE CONFERENCE SESSION

International Case Conference Session

Trauma surgeons from around the world will submit a trauma case they managed and the nuances of care that were involved. Of the cases submitted, the AAST International Relations Committee will choose those best illustrating a trauma patient cared for in their native country in an innovative, unusual or unique way using local resources showing the audience how they managed the care, resuscitation, operative intervention with images and videos. Selected cases will be presented at the lunch session and interrupted by questions to and from the expert panel of 3 senior ASST members, preferably from the US and elsewhere. In the one hour lunch session, three 20 minute cases will be presented and strict control of time (10 minutes presentation 10 minutes discussion per case) will be maintained by the moderators and audience participation will be moderated tightly allowing questions as well.

Panelists: Damian Clarke, MBChB, MBA, PhD, South Africa; Francisco Collet, MD, Brazil; Christina Gaarder, MD, PhD, Norway; David Feliciano, MD, USA; William Schwab, MD, USA

THURSDAY, SEPTEMBER 21
1:45 - 6:00 PM
ADD-ON SESSIONS

TAKING THE NEXT STEP: A COMPREHENSIVE APPROACH TO MAKING THE TRANSITION TO INDEPENDENT INVESTIGATOR (PART 2)

On the second day, participants will have the opportunity to pitch their own research ideas to a group of expert panelists, who will provide feedback in real-time. The group will then be divided into multiple break-out sessions to discuss specific aspects in various research disciplines, including basic and translational science, health services and outcomes research, qualitative research and mixed methods, and others. The two-day course will culminate with a keynote address highlighting the need to expand the current number of surgeon scientists, with an emphasis on trauma, acute care surgery, and surgical critical care.

Moderators: Jonathan P. Meizoso, MD, MSPH; Brittany K. Barilehead, MD, MS; Julio R. Coleman, MD, MPH; Ryan P. Dumas, MD

Speakers: Raul Coimbra, MD, PhD; Todd W. Costantini, MD; Rachael A. Callcut, MD, MS; Berto A. Joseph, MD; Ben Zaccour, MD, MPH; Elliott R. Hout, MD, PhD; Jaime Coleman, MD; Rosemary A. THE 2023 AAST NEUROCRITICAL CARE UPDATE AND BOARD REVIEW COURSE

This session will be a high-level review of modern neurocritical care concepts and practice, as well as a board exam preparation course. Neurocritical care has traditionally been a major component of both medical and surgical critical care practice but has lacked a formal subspecialty certification process that is readily open to surgical intensivists. In 2021, the American Board of Surgery announced a newly established subspecialty certification in Neurocritical Care that is a collaborative effort with the American Board of Anesthesiology and the American Board of Neurology and Psychiatry. Preparation for this exam requires not only familiarization with standard neurotrauma management, but also knowledge in non-surgical areas such as acute stroke and other neurologic emergencies, neuroanatomy and MRI interpretation, and neuropharmacology. This session will provide an intense focused review covering the core topics and focus areas that will be covered on the Neurocritical Care Exam and topics relevant to Acute Care Surgeons providing neurocritical care services. The format will involve short didactic lectures on high-yield topics as well as case examples with sample question and answer reviews. In addition to the syllabus materials, attendees will also receive a copy of ‘The Pocket Guide to Neurocritical Care’ which will be included in the registration fee.

Speakers: Joseph Cuschieri, MD; Matthew Martin, MD; Deborah Stein, MD, MPH; Purvi Patel, MD; Tanya Egozcle, MD; Berto A. Joseph, MD; Krista Kaups, MD, MSC; Sam Thakker, MD; Carlos Brown, MD; Salina Wydo, MD; Joel Elterman, MD
Addressing disparities within Acute Care Surgery is important not only from a social justice and equity standpoint, but also for improving the overall health and economic prosperity of our patients. People of color and other underserved groups experience higher rates of morbidity and mortality. As the population becomes more diverse, with people of color projected to account for over half of the population by 2050, it is increasingly important to address systemic disparities particularly within the field of acute care surgery. Effective January 1, 2023, new and revised requirements to reduce health care disparities will apply to organizations in the Joint Commission ambulatory health care, behavioral health care and human services, critical access hospital, and hospital accreditation programs. The move comes after the Joint Commission originally released an advisory for health care leaders to make health equity a strategic priority in July 2021. Centers for Medicare and Medicaid (CMS) will also begin tying reimbursement to achieving health equity. How do we as Acute Care Surgeons ensure alignment with the Joint Commission and CMS in achieving health equity and eliminating health disparities for our patients?

**SOLUTIONS TO ACHIEVING HEALTH EQUITY AND ELIMINATING HEALTH CARE DISPARITIES WITHIN ACUTE CARE SURGERY**

In September of 2022, the American College of Surgeons launched the verification program for Emergency General Surgery. This program aims to improve care of the EGS patient by defining key components of strong EGS programs with a focus on process improvement, data capture (and hence research) and evolution of care from regional hospitals to large quaternary centers. Though the requirements for verification are readily available on the ACS website, the practicalities of standing up a program and what a site visit entails are not familiar to many. The aim of this lunch session includes:

a. Key aspects of an EGS program that should be in place for a successful visit
b. How to engage hospital and departmental leadership in supporting the pursuit of EGS verification
c. Practical aspects of the site visit and how to get started/proceed/complete a successful visit

**IN PURSUIT OF AMERICAN COLLEGE OF SURGEONS EGS VERIFICATION: A NUTS AND BOLTS GUIDE TO VERIFICATION**
GOALS OF WITS:
The goal of this program is to provide the opportunity for networking and support to an international community of interested surgeons committed to the care of critically injured patients. Through this effort we seek to build community and develop creative solutions to common challenges. While many of issues will focus on the challenges facing women in our field, many will be relevant to all young surgeons and all genders are welcome to participate.

THIS PROGRAM IS OPEN TO ANY SURGEON ENGAGED IN ACUTE CARE SURGERY ACROSS THE GLOBE

VIRTUAL JOB FAIR

American Association for the Surgery of Trauma (AAST), Eastern Association for the Surgery of Trauma (EAST), and Surgical Critical Care Program Directors Society (SCCPDS) will be hosting a virtual job fair November 9-10, 2023

NOVEMBER 9-10TH 2023

FOR JOB SEEKERS

There will be no charge to participate. The job fair is open to residents, in-training fellows, and junior faculty (within 5 years of finishing residency or fellowship). This will be an opportunity to engage with employers and leadership from respected institutions & universities, while also networking with your peers. Scan QR code to learn more.

FOR HIRING INSTITUTIONS

For the employer, this platform will give you the ability to broaden your reach for qualified candidates to fulfill multiple vacant positions by participating in this 2-day event. After the event, you can get a complete list of employers who visited the fair along with their contact information and CV.

In addition, your job postings will be hosted on all three association’s career sections of their website! We have three package options that employers can choose from.

SCAN HERE TO LEARN MORE!
BOOKING YOUR ROOM:
A block of rooms has been reserved at the Hilton Anaheim at the special group rate of $264 single/double per night, plus tax and fees.

Hotel check-in is 4:00pm local time. Every effort will be made to accommodate guests arriving before the check-in time; however, rooms may not be immediately available. Checkout time is 12:00pm local time.

**Please note that a credit card is required at time of booking to guarantee the reservation. The credit card will only be charged for a late cancellation fee or no-show fee.

***Please note, AAST DOES NOT use 3rd party companies to book hotel rooms. If you receive an email to book your hotel through a 3rd party company, please disregard. The reservation link provided is the best method to secure your reservation. Or you can call 877-776-4932 and reference: American Association for the Surgery of Trauma (AAST) Annual Meeting.

RESERVATION DEADLINE:
The cut-off date to receive the special group rate is Friday, August 18, 2023. Reservations received after this date, or once the room block fills, will be based on space and rate availability.

CANCELLATION:
Reservation cancellations must be received before at least 72 hours prior to the scheduled arrival date to avoid a cancellation fee of one night’s room and tax.

GOVERNMENT RATED ROOMS
A limited number of Government rated rooms have been contracted at the Hilton Anaheim. To qualify for government per diem rates, guests must present a valid form of identification at check-in that consists of:

For U.S. Federal Government Per Diem Rates:
• Personnel badge or ID card issued to U.S. Federal Government civilian employees
• Official Government/Military Travel Orders/Proof of Official Duty Status (some hotels may require travel orders in addition to another form of ID)
• U.S. Military ID card issued to U.S. Military Personnel on Official Travel
• Common Access Card (CAC) issued to U.S. Federal Government civilian employees and U.S. Military Personnel on Official Travel (excludes CAC cards issued to contractors and retired military)
• U.S. Federal Government issued Visa, MasterCard or American Express Card (i.e. SmartPay Credit Card)
• Federally Funded Research and Development Center (FFRDC) identification card
• Native American Tribal Government ID card
• Canadian government or active-duty military issued ID or credit card

For State and Local Government Per Diem Rates:
• State or local government issued personnel badge or ID card
• Official Travel orders on original state or local government letterhead

If you cannot provide one of these forms of identification, the hotel will provide you with the standard Group Rate per night ($264 plus applicable taxes and fees) at the time of check-in.

If you can meet these requirements, reservations can be made at the following link:

PARKING:
Self-parking (per day): $24.00 plus tax (currently 17%)
Valet Parking (per day): $39.00 plus tax (currently 17%)

DINING
(typically outlets are open per the times below, however they are based on hotel occupancy):
The Hilton Anaheim offers five dining and gathering options—Mix Restaurant (6:00am-2:00pm; 5:00pm-10:00pm), Mix Lounge (11:00am-1:00am), Starbucks (varies), The Pool Bar & Grill (12:00pm-5:00pm) and a food court that features two options, Crave Pizza and Coastal Mexican.

Mix Restaurant features an extensive variety of imaginative dishes created from some of the finest organic and natural ingredients available in the region, and Mix Lounge—located in the atrium—offers signature cocktails, an extensive wine list, and delectable appetizers.

Enjoy pool-side creations at the Pool Bar & Grill. Open from May to September, you can indulge in a selection of popular grilled dishes, burgers, light snacks, or fresh fruit and salads, cool off with smoothies or cocktails and get your dose of vitamin sun!

You’ll also find a wide variety of restaurants located within walking distance of the hotel.
