

Trauma Outcomes & Performance Improvement Course (TOPIC)

The Society of Trauma Nurses (STN) has developed the Trauma Outcomes and Performance Improvement Course (TOPIC) in response to the need for education and better understanding of the performance improvement process in trauma care. TOPIC focuses on the on-going assessment of the continuum of trauma care with a structured review of process and discussions of strategies to monitor trauma patient outcomes. TOPIC is taught in a one-day interactive, modular format and is customized to best meet the needs of the individual trauma care provider participants who have varying levels of experience with trauma performance improvement. The course offers practical application for all levels of trauma centers, from entry level to mature phase of program development. The modules are taught with a focus on didactic, operational definitions, sample tools, case study examples, and take-home points.

PLEASE REVIEW PRIOR TO SIGNING UP FOR THE COURSE

Course Date: Tuesday, September 25, 2018

Time: 7:00 am-5:00 pm
