

Instructions for the AAST 2021 Abstract Submission Site
Deadline: Monday, March 1, 2021

The 2021 Abstract Submission Site is now open!

Please note: there are two poster sessions tentatively set for Wednesday, September 29th 5:15-6:15 PM and Thursday, September 30th 11:30-12:30 PM EST. If selected for a poster presentation, please make yourself available for either session (AAST understands that due to COVID-19, travel restrictions may be in place for presenters and will work with presenters should they have restrictions regarding travel)

Rules:

- Original, new, and significant scientific work only
- Work presented at local, state, and regional COT competitions ARE eligible
- The work MUST not have been presented at ANY other meeting: local, state, regional, or national
- The work cannot be presented at the Resident Competition at the American College of Surgeons in October 2021
- The submitted abstract should not be similar to any work submitted to any other organization or journal
- Any content that has been made publicly available in print or online, if part of a submitted abstract, may jeopardize the originality of the submission and preclude consideration by the AAST
- If an abstract DOES NOT include an AAST member as one of its authors, a sponsor is required. If the submitter does not have a sponsor, please contact AAST (rsass@aast.org) prior to finalization of the abstract so a sponsor may be secured
- All presenters are required to register for the annual meeting
- By default, the submitter will receive all communication regarding the abstract. If you wish to have another person CC'd on the correspondences, please add them in the CC field of your profile. *Please note that all correspondences will be sent to the CC email regarding all submissions made under this profile.* If you have multiple submissions and need each submission to go to different individuals, please forward the email to those individuals
- Abstracts are limited to one page – please use our formatted Word document to ensure your abstract is one page
- All abstracts should be structured as:
 - Introduction
 - Methods
 - Results
 - Conclusion

IMPORTANT NOTES:

- If selected for an oral presentation for the AAST Annual Meeting, all presenters **MUST** submit a manuscript to the *Journal of Trauma and Acute Care Surgery* prior to the AAST meeting by Monday, August 30th. Failure to do so may include sanctions of not presenting at the meeting or the presenting author, senior author, or institution not presenting at an AAST

Instructions for the AAST 2021 Abstract Submission Site
Deadline: Monday, March 1, 2021

Annual Meeting for the next two years.

- All manuscripts **must** be submitted to the discussant by the deadline set by the Program Chair (August 30th).
- All selected abstracts become the property of AAST and once you submit, you acknowledge that accepted abstracts will be published on the AAST website for the duration of the meeting and will be archived for at least 10 years on the AAST website.
- If an abstract DOES NOT include an AAST member as an author, a sponsor is required. If the submitter does not have a sponsor, contact the AAST (rsass@aat.org) prior to finalization of the abstract so a sponsor may be secured.
- All presenters are required to register for the Annual Meeting.
- QUICKSHOT Presenters: you are required to submit a manuscript to the discussant; however, you are NOT required to submit a manuscript to the *Journal of Trauma and Acute Care Surgery*.

ABSTRACT PREPARATION

Abstracts submitted must adhere to the following specifications to be considered for presentation at the 80th Annual Meeting of the American Association for the Surgery of Trauma and Clinical Congress of Acute Care Surgery, September 29-October 2, 2021

- All abstracts MUST fit on one page. Abstracts longer than one page will be withdrawn.
- No reference to the names of the authors or institution should be included in the body of the abstract. **If there is reference to the authors or institution, the abstract will be withdrawn.**
- There is a limit of 15 authors per abstract.
- A disclosure form MUST be completed by the submitting (by default the Primary Presenter) author during submission. If the submitting author changes OR there is a change in the conflict of interest, it is the responsibility of the submitter or first author to notify the AAST. Failure to do so could result in the paper being withdrawn from the program or the institution not being able to present at an AAST Annual Meeting for two years.
- The following are guidelines for the abstract. *Just because your abstract fits in these guidelines does not mean it will fit in the abstract system:*
 - Allow for the title, authors, and discussant section to be 12 lines of the abstract
 - The page size is 8.5 in x 5.5 in
 - The printable area, counting margins, is 7.75 x 4.7
 - Margins are: Left 0.3 in, Right 0.5 in, Top .25 in, Bottom is .5 in
 - Font = Times New Roman 11pt.
 - Use our template here to ensure your abstract is one page

Submission to the Journal of Trauma and Acute Care Surgery or Trauma Surgery and Acute Care Open:

All oral presenters are required to submit a manuscript to the *Journal of Trauma and Acute Care Surgery* by August 30th for first right of publication. Failure to do so will result in sanctions to the institution and the first author in either the paper pulled from the program or the institution not being able to present from the podium for two years. Notification of sanctions will be made prior to the start of the meeting.

All Quickshot and poster presenters are encouraged to submit a manuscript to either the *Journal of Trauma and Acute Care Surgery* or *Trauma Surgery and Acute Care Open*, but it is not mandatory.

AAST has an early manuscript submission process for those who want their paper published in

Instructions for the AAST 2021 Abstract Submission Site
Deadline: Monday, March 1, 2021

January, February, or March of 2022 (which are considered “AAST Annual Meeting Issues”). To receive expedited review and publication (if accepted) in the first quarter of 2022, the manuscript must be submitted by August 1, 2021.

All manuscripts submitted after August 1st (if accepted) will be given priority for publication in 2022.

As all oral presentations will be under consideration for publication in the *Journal of Trauma and Acute Care Surgery*, authors are asked to refrain from distributing complete reports (i.e. copies of manuscripts under consideration) or full data presented as tables and figures to journalists. Although media coverage of the presentations themselves will not necessarily preclude publication, associated manuscripts are subject to the Journal’s embargo policy (i.e. full reports or elements of manuscripts under review may not appear in print or online until publication, which, in most cases, will occur within 6 months of the AAST meeting).
